SURFING

If you're looking for a conference event or team building activity that is a little different, yet loads of fun for everyone, then our surf session is the way to go!

Our sessions provide a unique shared experience that will bond your team for years to come. The experience of catching your first wave will be one that is remembered for a lifetime.

We use soft, foam surfboards, providing you with a safe and stable learning experience. Combine that with full length wetsuits to keep you warm, or rash-vests in QLD for the warmer months and you will be catching your first wave in no time.

Our goal is to give you a fun, safe experience of surfing, teaching you enough of the basics to get you "woohooing" all the way into the beach!

NIGHT KAYAKING

A truly memorable twilight experience.

As the sun sets and the night sky comes to life, your adventure kicks off with a short kayaking briefing before we hit the water to take in the views. As the water reflects the changing colours of dusk and a light mist rises over the water, you'll switch on your headlight and start spotting native wildlife.

We'll find a quiet spot where you'll stop to enjoy a cup of soup or snack (provided). With stars now shining bright overhead, your guide will point out the unique features of the Southern Sky, sharing insights into what makes it so special. Then, for a moment of calm, we'll switch off the lights and simply float - taking in the stillness, the stars and the sounds of the night. You'll paddle back under moonlight guided by your headlight and the reflection of the stars.
